

SEEDMASTER

DIRECT SEED WITH **PINPOINT** ACCURACY.

Recession Proof Your Farm. It's ALL about Efficiency

- ✓ Highest yielding drill on the market
- ✓ Lowest seeding rates due to superior product placement
- ✓ Highest resale value
- ✓ Lowest maintenance
- ✓ Greatest fertilizer use efficiency
- ✓ Highest grade steel quality and paint finishing

90' Air Drill

CT-Design 18' Transport Width

Seed Between Stubble Rows

77' Air Drill, 14" Row Spacing Sulky Liquid Cart

- Terrain-following openers
- Rapid, uniform emergence
- Bulletproof performance
- Compact-In-Transport Design - Folds to 18' width

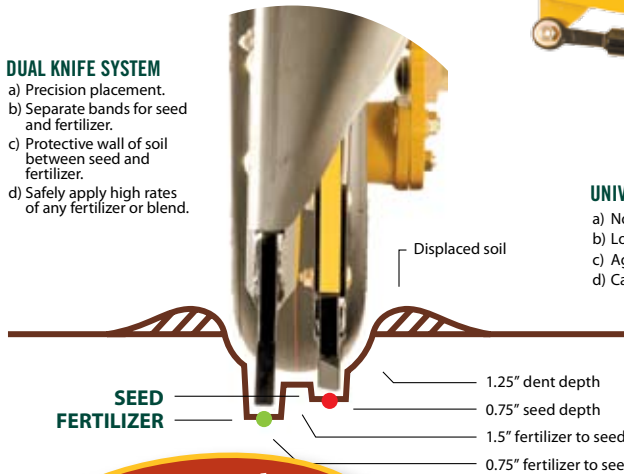

- Packing Force Sensor - Superb uniform packing
- Bolt-together design

- Smart Hitch - Seed between rows; Boost yields
- Easy frame expansion; Row space changes
- 10", 12", or 14" row spacing
- Wide Frames - 20'-90' widths

DUAL KNIFE SYSTEM

- a) Precision placement.
- b) Separate bands for seed and fertilizer.
- c) Protective wall of soil between seed and fertilizer.
- d) Safely apply high rates of any fertilizer or blend.

STANDARD RESIDUE DEFLECTOR

UNIVERSAL FERTILIZER KNIFE

- a) No plugging.
- b) Long-wearing knives; low cost replacement.
- c) Aggressive penetration angle.
- d) Carbide tip; tapered design.

NEW PACKING FORCE SENSOR

NO-MAINTENANCE SEED KNIFE

- a) Large capacity drop tube.
- b) Canola-Corn-Kabuli.
- c) Angled carbide; tapered design.

PACKER WHEEL

- a) Fast, accurate depth setting.
- b) Flex tire for quick mud release.
- c) Maintenance-free bearings and hub.
- d) Cast Twine Guard and Mud Guard
